Brad Howe

Meine Figuren sind, auch wenn sie sich nicht bewegen, kinetisch. Sie zeigen Spannung und Entspannung, Bewegung und Gegenbewegung. Sie sind Energie, Kraft und Vitalität. Mein Material ist Edelstahl: Es ist kühl, elegant und funktionell. Meine Formen kommen aus dem Pop und dem Comic. Die so entstehende Spannung zwischen Funktionalität und Spiel, ist ein weiteres Element meiner Arbeit. Das ist meine Art der Schönheit zu huldigen.

My sculptures are composed with vitality and celebrate beauty. Their structures are composed with actual or implied kinetic properties aimed at exposing energized moments between connection and disconnection, as well as between strain and serenity.
